

# Preventing Eye Injury

Did you know?

**Children's eye injuries** happen most often during play when there are no adults present.

Walk; don't run when carrying sharp objects. (pencils, pens, scissors, & ruler)

Closely watch children to prevent eye injuries.

Teach children to never look directly at the sun.

Make sure children wear protective eyewear when playing sports.

Keep household cleaners and other chemicals out of the reach of children.
